MUNCIE'S CROW AN IMPOSTOR.

Murdered Man's Brother Says the Story Is a Scheme to Release Van Imman.

HICKSVILLE, O., May 28 .- "My murdered brother," said L. L. Crow, "lies buried in Lost Creek Cemetery here. John Crow, recently turned up at Muncie, Ind., is an impostor. It is the scheme of Van Imman's lawyer to get his client released from the Michigan penitentiary. My brother was a home-loving boy, and would not remain away unheard of so long. He lived at Mark Center, six miles east of here, and not at Van Wert, as stated in the report about the impostor. He had several hundred dollars due him, and if alive would return home to collect it. The family has the revolver, watch and clothes of my murdered brother, the articles being found at Grand Rapids in the hands of Van Imman. The pawnbroker recognized him at the trial. Van Imman claimed to have worked a week for the revolver and for the watch traded another, but this was proved false, as he was absent from Mark Center only four days when he returned without Crow, and he had no watch to trade. Van Imman left Mark Center the same day he returned from Big Rapids, paying for his ticket to Chicigo with a mutilated \$1 bill, identified by the ticket agent as one he had patched and given in change to John Crow four days previously. Van Imman had no money to exchange bills, but he displayed an abundance when he purchased the ticket. My mother reconized the clothing found on the body by the texture and the strip she had put in the back of the coat, as it was too small and had to be cut out. This coat was a second-hand one and the man with whom he traded for it also identified it. The shirt mother made and the material were the same as remnants left over, which she took to the trial. He had only one suit of clothes when he left here, and took with him some \$400. Van Imman had nothing and coaxed him to go. I was fully aware there was a scheme on foot to release Van Imman, but the full extent of it I am not at liberty to disclose t'll the call for a new trial. I only wish to

Judge Baker Restrains the Striking Indiana Coal Miners.

Chicago & Eastern Illinois Railroad People Come Here and Quietly Secure the Writ from the Court.

THE CARS MUST MOVE

TROUBLE FEARED AT LYFORD

Illinois Central Trains Guarded by Companies of Militia.

Serious Trouble at Wenona, Where Trains Are in Possession of Strikers -Conference at Springfield.

The mining troubles in Parke county culminated in the issuance of a temporary injunction in the federal court in this city, yesterday morning, at 11 o'clock, restraining the strikers from interfering with the property of the Chicago & Eastern Illinois Railway Company.

For several days rumors have been thick to the effect that the company would appeal to Governor Matthews for protection, but such action was not taken, the court being thought to afford a readier means of relief. The application for the injunction was kept exceedingly quiet and everybody cognizant of the action was asked to "keep it dark" until a deputy marshal could get to the scene and serve the writ.

W. H. Lyford, general solicitor of the Chicago & Eastern Illinois Railway Company, slipped quietly into the city yesterday morning and went to Judge Elliott's office and from there, accompanied by the latter attorney, to Judge Baker's room in the federal building. It did not take long to lay before the Judge the facts in the complaint of the railroad company against the strikers. The application for an injunction was based on the allegation that the strikers in the western part of Indiana had sidetracked a train belonging to the Chicago & Eastern Lilinois Railroad Company and had threatened to shoot certain officers of the corporation, all to the detriment of the interstate-commerce act, and to the damage of the railroad company.

Judge Baker issued a temporary restraining order, which is to remain in effect until Thursday, June 7, when it will be argued before him at 9 o'clock in the morning. Mr. Lyford departed at once for the scene of action, and United States Marshal Hawkins sent a deputy there to serve the writ of injunction.

The action which prompted the injunction proceeding was the stopping of a train of thirty cars of coal at Lyford, Parke county, Saturday, by the striking miners, who refused to let it proceed to Chicago. The miners captured several Terre Haute policemen sent out to help the company's officers move the train, took away their revolvers and made them walk back to Terre Haute.

Still Holding Coal Trains. Special to the Indianapolis Journal.

CLINTON, Ind., May 28 .- Everything is quiet here to-night, but the next few hours is expected to determine the course of the coal miners' strike at Lyford. The miners are behaving admirably. They are orderly and sober and very strict in enforcing sobriety. They are guarding railroad property with as much care as though they had been deputized to do so, but they are determined that no coal from the Kentucky and other Southern mines shall enter the market to weaken the strike. They are being fed by Parke county farmers, who are in sympathy with them. This entire community seems to be a unit in supporting the men, but the report in to-day's papers that the officials had decided to ask the United States courts to interfere and move the captured coal train has put a very serious and menacing phase on the situation. There are many Italians here who are with the native and other foreign miners, and should any attempts be made to haul the cars out. there will be a battle. The leaders received telegrams from both President and Secretary McBride to release the coal and allow the road to haul coal through. The men are now holding a mass meeting at the mines to vote whether to allow the coal to go through. There is a strong sentiment against it. Unless there be a speedy settlement of the question serious trouble cannot be avoided at Lyford.

Reinforcements for Lyford. ROB'T MARTINDALE & CO., Agts, John Y. McKane's Chief Tool at Graves- Special to the Indianapolis Journal.

TERRE HAUTE, Ind., May 28 .- The report was received here to-night that striking miners from Rosedale had started across the country to Lyford to assist the strikers there in holding the cars of coal. The Rosedale miners were said to be heavily armed.

BIG FOUR TRAINS STOPPED. Miners Watching Day and Night at Fontenet.

Special to the Indianapolis Journal. BRAZIL, Ind., May 28.-Yesterday all day about three hundred miners stationed themselves on the Big Four, near Fontenet, and stopped every freight train on the road and examined every box car to see if any coal was being hauled. On one freight a box car was sealed and marked "perishable freight." The miners, supposing this to be a ruse by the company, forced entrance in the car and discovered that it was lorded with coal. The car was immediately side-tracked. One engineer endeavored to escape the strikers by dashing by them at full speed. However, some of the strikers managed to jump the engine and turned off the steam, stopping the train, and made the usual examination. The miners have side-tracked ten cars of coal and keep them guarded day and night. Passenger trains are not molested, and all freights are permitted to go unharmed when it is ascertained that no coal is being hauled. Some cars loaded with coal on the Vandalia branch, near Stearlyville, were taken last night and the coal dumped along the track. This is supposed to be the work of strikers.

He Averted Bloodshed.

J. Q. Van Winkle, general supernitendent of the Big Four, stated, yesterday, that he thought he acted wisely in holding at Terre Haute the freight trains on which were the striking miners of Clay county determined to go to Pana and force the six hundred miners working there out, even if it meant bloodshed. Mr. Van Winkle said: "The citizens of Pana were in good fighting trim and if the miners had reached there, there would have been reasons for several funer-als in Clay county soon after. If such had been the result, the peaceable citizens of Pana would have blamed me for allowing our trains to transport the miners there. There are six mines at Pana getting out twenty-eight loads of coal a day, and the miners are satisfied with their wages. The existence of Pana practically hangs on the operating of the mines, and I believe the citizens of that place are determined to protect the men employed in the six mines."

GUARDED BY MILITIA.

Illinois Central Train Moved with the

Aid of Soldiers. MINONK, Ill., May 28 .- Colonel Duncan, with four companies of militia, arrived here to-day. Sheriff Tool, with one hundred and fifty deputies, was out all night, and during the morning preparations were made to move the Illinois Central train that had been delayed by the striking miners. The

the sheriff and his men, among whom were a number of old veterans. An occasional deputy carried a Winchester, and others had revolvers. At the crossing of the Santa Fe, where the miners, to the number of 150, were congregated, and where the trouble, if any, would occur, everything was quiet, and a speedy passage was made. Two of the alleged ringleaders, James Smith and Henry Meyer, are under arrest, and have retained Hon. J. M. Fort to look after their cases. No disorder, further than putting coupling pins at the crossing, piling ties across the track or uncoupling cars, has occurred. The miners held a largely-attended meeting in a grove. The militia are in camp south of town. The sheriff and his deputies are also on duty. It is thought the peace will be kept.

Recaptured by Strikers. WENONA, Ill., May 28.-Three coal trains guarded and escorted out of Minonk this morning by troops were recaptured by the strikers here a few hours after their triumphal release from the blockade. Strikers to the number of 150 waylaid them, and, taking possession of the trains, side-tracked them. Word was sent at once to Sheriff Lense at Metamore and this even-Sheriff Lense at Metamore and this evening he appeared on the ground. Accompanied by deputies, he went among the
strikers and tried to persuade them to
abandon their obstruction. They defiantly
declined to do so. After exhausting all
peaceful measures the sheriff sent to Tolusa for one hundred Winchesters and four
thousand rounds of ammunition. With
these he proposes putting a posse in the
field to capture and release the coal trains.
He has also wired to Springfield a report
of the state of affairs and requested Governor Altgeld to send troops to the scene ernor Altgeld to send troops to the scene

CONFERENCE AT SPRINGFIELD. Miners and Operators Talk and Agree

on Another Meeting. SPRINGFIELD, Ill., May 28.-The conference of mine operators of the central and southern Illinois fields and members of the executive board of the United Mine Workers of Illinois, called by State President Crawford, of the mine workers, was held in this city to-day. State President Crawford presided. Operators representing about fifty properties were present. National President McBride, of the United Mine Workers of America, in addressing the operators, told them that central and southern Illinois were the greatest drawbacks to an adjustment of the national strike, and that if an agreement could be reached between the operators and miners in these fields that would place them on a competitive basis with the remainder of the country, the strike would be settled. F. W. Tracy, of Springfield; Paul Morton, of Chicago; James W. Elsworth, of Chi cago, representing ratiroad coal properties in Pennsylvania; Benjamin Warren, of Peoria; Thomas Spellman, of Danville, and many other operators spoke favoring a fair and amicable adjustment. An agreement signed by nineteen operators in the Peoria and Canton fields, restoring wages to last year's scale, was announced by representatives of those districts, who said it would be put into effect as soon as the men would return to work. Representatives of the Pana and of the Consolidated Coal Company's mines refused to meet the miners' executive board at this meeting, and the responsibility for the cutting of prices below remunerative figures was thrown on them. It was deemed inexpedient to submit any proposition to the executive board unless representatives of these properties were brought into conference. After much discussion a committee, consisting of Paul Morton, of Chicago; Thomas Speliman, of Danville, and Col. John S. Lord, of this city, was appointed in ac-cordance with a resolution passed, to send invitations to all operators of illinois to attend an operators meeting to be held here next Thursday. A delegate meeting of Illinois miners will be held here the same day. The executive board of United Mine Workers will be in conference with the miners, and they will submit a scale to the operators. President McBride assured the operators that the national strike was in such shape that when a fair scale was agreed on by the Illinois operat-ors the strike would be settled at once,

Militia Leaves Centralia. CENTRALIA, Ill., May 23.-The four companies of State troops that have been juartered here since the destruction of the Big Four mine by Duquoin strikers left the city to-day for their respective homes. The bailiffs have all been released from duty, the last of the prisoners were bailed out by friends to-day and everything indicates that the troubles here are ended. The Big Four mine is repairing the wrecked property and the operators have given notice that they will resume work in a few days and give employment to all their men who want work. The City Council met tonight in special session and offered the operators protection from outside inter-ference at any time called on and will swear in twenty-five extra police for that

purpose to-morrow. Situation at La Salle. LA SALLE, Ill., May 28.-At a meeting of citizens held here to-day, resolutions calling for the conviction of all rioters were passed. A request signed by the Mayor was sent to Governor Altgeld, asking that the milita be retained here as trouble is feared. The news that the sheriff intends arresting more of the local rioters has caused much apprehension of a riot. It was reported this afternoon that a mob was organizing to attack the men in charge of the Carlson company's shaft, and a guard of militia was sent to the mine. The first train of coal to pass through here on the Illinois Central for several days ar-

LONG TRIAL ENDED.

A Paint Company Beaten by the National Lead Trust.

CINCINNATI, May 28.-Judge Rufus B. Smith to-day gave judgment in a case that has occupied ten weeks in trial, and that has been contested with such bitterness that the judge declared that the testimony of one witness was not entitled to belief and that another had deliberately committed perjury. It was a battle really between the National Lead Company, known as the Lead Trust, and one of the few independent companies not included in the National company. The suit was brought in August, 1891, by the Walker Paint Company against the Anchor White Lead Company and the Eckstein White Lead Comfor an injunction restraining the defendants from issuing circulars containing analysis of the plaintiff's product, showing that it was adulterated with barytes. Fifty thousand dollars damages was also claimed. The defendant company, being now in the National Lead Company, it was the real defendant. The defense was that the statement of the analysis of the plaintiff's product in 1889 and 1890 was true. The court, in an elaborate opinion, found that the claim of the defense was fully established and dismissed the case, dissolving the prelimi-

Compulsory Arbitration. NEW YORK, May 28 .- The railroad employes were engaged nearly all the forenoon at the Lennox Lyceum in bringing their national convention to a business basis. A committee on credentials was appointed with one representative from each of the orders, and after they had spent a couple of hours they reported as actual delegates entitled to represent their divisions 175 men. The one important matter of the morning discussion was "Compulsory Arbitration," and the most striking address was made by P. H. Morrissey. While favoring the idea in the abstract, he thought it might be advantageous in one section of the country, but not so in another. Every State should pass such a law as would afford proper protection to parties in a dispute and carry out the decisions at which the board of arbitration arrives. The subject was discussed in the afternoon also. Final adjournment will probably be

Rival Candidates for Congress Speak at Owenton, Ky.

OWENTON, Ky., May 28.-Col. W. C. P. Breckinridge and Mr. Evan Settle, competitive candidates for the Democratic nomination for Congress from the Ashland district, spoke here this afternoon in the courthouse yard. Two thousand people were present, including delegates from Scott, Franklin and Henry counties. The courthouse was too small for the crowd and the speaking had to be outside. This is Mr. Settle's own county, and friends and enthusisasms were all on his side. There were Settle banners carried around the public square, and they were cheered ve-hemently. Mr. Settle introduced Col. Breckinridge at 1:30. He was greeted with some cheers. His speech consumed an hour. He said he had not come asking alms; referred to his record of ten years in Congress; suggested that it was bad policy to swap horses while crossing a in Congress; suggested that it was bad policy to swap horses while crossing a swollen river; said the Democratic party had the great task of tariff reform on its hands, and that experienced Democratic legislators were needed now to grapple with this task. Finally he spoke of his personal devotion to the people of Owen county and praised their loyalty to Democracy and concluded declaring everlasting devotion to his friends and a defiant unforgetfulness of his enemies.

ST. LOUIS, May 28.-Kelly's army, 1,100 strong, arrived in St. Louis this evening from Alton, Ill. The commonwealers' navy came to anchor off Ferry street, near the city water works, and the men went ashore, where they will spend their time in camp until the march, or rather the sail, to Washington is again taken up. They were welcomed by the local labor unions and a big crowd of people, and a good supper provided by the trades and labor unions of the city awaited the travelers on their arrival. The Kelly army during its sojourn in St. Louis will have no reason to complain of lack of food. Aside from the preparations which the various labor organizations have made, an unknown saloon keeper, has made liberal provisions for their subsistence. When his announcement to that effect, printed in a morning paper here, reached the commonwealers at Alton, they telegraphed that an immediate start for this city would be made. The saloon keeper has provided twelve steers, twelve sheep, a carload of vegetables and 1,000 loaves of bread. He will entertain "General" Kelly and the two ladies of the party at his home.

Mrs. Agnes L. d'Arcambal, of Michigan, read a paper on "An Ideal Home for Discharged Prisoners." The paper was an exhaustive treatment of the subject and was well received and discused. Mr. Glenn, of Maryland, spoke of the work done by the Prisoners' Aid Society, of Baltimore. The last session of the reformatory section was held this afternoon. The first pa-per read was on the subject of "Truancy and Its Treatment in Massachusetts," by Charles W. Birtwell, Boston. "Music in Reform Schools," by Superintendent Wistindorf, of Washington State, was read by Superintendent Charlton. "The School in Politics," was read by J. Adams Linder, of Illinois. Animated discussion followed the reading of these papers. The final meeting of the conference was held to-night. Resolutions of thanks to offi-

Situation in Pennsylvania Fields-Col. Rend Threatens to Import Negroes if His Men Will Not Work.

CRIPPLE CREEK, Col., May 28 .- If trouble breeks out again, and it is impossible to see how it can be avoided, the results bid fair to be far more terrible than those already witnessed. The armistice declared yesterday was made use of by the sheriffs to increase their forces. Nearly four hundred men have been recruited in Denver and only await the slightest outbreak to be forwarded to Cripple Creek and be sworn in as deputies. The strikers seem to have taken courage from the action of Governor Waite, and affect to believe that the militia would tend to aid them in carrying out their purposes. Be this as it may, the entire district is terrorized, and the strikers, being encouraged by the temporary withdrawal of the deputies, are becoming bolder and more imperative and intolerant. There is no danger that a nonpartisan will be fired upon without first being warned, but when ordered to stop it means that he must stop just where his feet are resting. It is but a step from this attitude to one of most reckless bearing, and people living in the camps fear the outcome.

All day strikers have been searching for arms and ammunition in the mining camps, and wherever arms, ammunition or provisions were found they were confiscated and receipts given for them. No one about the camp except strikers are permitted to carry arms, and the strikers, who reign supreme, have issued the order that every able-bodied man found in camp, when the real contest comes, will be forced to bear arms in their ranks. The result is that many people are moving away from the camps to the city of Cripple Creek and elsewhere. Town and county officials are utterly unable to do anything in the face of such an overwhelming number of desperate men. Parties of men who are in sympathy with the mine owners have gone to Midland, where they will meet the deputies and conduct them through the best routes to the strongest points about the scene of trouble. A large party of strikers have also gone towards Midland to meet the deputies and retard their progress as much as possible. The country about Bull Hill, the strikers' stronghold, for eight miles square, is held and patrolled by the strikers.

Arbitration Not Possible. COLORADO SPRINGS, Col., May 28 --The following was handed out for publication to-day by the mine owners:

President Slocum, of Colorado College, . and some other gentlemen interested in a peaceful solution of the difficulties between the Cripple Creek Miners' Union and mine owners held a meeting to determine whether or not they would appoint a com-mittee to meet a committee of mine own-ers to arbitrate the differences. After the meeting was held, Mr. Calderwood, president of the miners' union, called J. J. Hagerman up on the telephone, at 3:30 p. May 27, and informed him that the miners' union had appointed a committee to confer with the mine owners, and wanted to know when and where a conference could be held. He was asked where he preferred to have it, and said in Cripple Creek. Mr. Hagerman replied that he preferred Divide, to which Calderwood consented. Wanting to know at what hour it could be held, Mr. Hagerman replied: "I think we can go up to-morrow." The following conversation then took place over the telephone, and was reported by a stenographer on the Mr. Hagerman-How many of your men will be there?

Mr. H.—Have you full power to act?

A.—That will depend on certain things that must be settled before the conference. Mr. H .- Would whatever is done have to be submitted to the union for confirmation Mr. H.-What are your principal condi-A .- The first condition is that all union men must be first employed. Mr. H .- Must all the men employed be union men?
A.—Yes, if there is enough to go around.

Mr. H .- That practically means that no nonunion men should be employed. A.-The men that are employed must agree to join the union in one month after they commence work. Mr. H.-If we must agree in advance to accept your propositions what is the use of having a conference? A .- These are the conditions that we in-

conversation and the other side as re-peated at the time by Mr. Hagerman. Alleged Cause of the Trouble. CRIPPLE CREEK, Col., May 28.-In a sensational sermon on the labor troubles of the country Rev. H. E. Warner, Methodist, last night said: "If it is true, as I understand from the best authorities which I have been able to obtain, that the present trouble in Cripple Creek is due to the fact that the mine owners will not appoint half a dozen Catholic bosses, and if it is true that an organization which might settle the difficulty has refused to do so on this account, then I say that the A. P. A. was not organized any too soon." There was a chorus of "amens," and the congregation broke into vociferous applause. ROUSE, Col., May 28. - This afternoon twenty Italian miners from Trinidad, coming hither to make the miners of this town quit work, reached Rouse Junction on the Denver & Rio Grande road. They hung around the station until the local train pulled in from the south. Conductor Evans saw the men wanted to capture the train, and ordered the engineer to start at the highest possible speed. The miners drew their guns and rushed for the engine. The engineer and fireman beat them off with shovels and kicked several guns out of their hands. A number of shots were fired A sheriff's posse captured the men and placed them in jail. Their friends threaten

Central Pennsylvania Miners Did Not Return to Work. PHILADELPHIA, May 28.-This was the

day fixed upon by the bituminous coalmine operators in the Clearfield and allied districts of central Pennsylvania for the resumption of work in their mines. So far as heard from there has not been ary resumption; neither has there been any
